Hand washing is an important habit that should start early so it becomes automatic as your child grows. You can help! When dropping off your child at school you should start their day off by washing their hands. Hand washing is the most effective way to stop the spread of illness. The teachers will be reminding you to wash your child hands when entering into the classroom.

Please check your child's cubby and make sure that he/she has the appropriate clothes for the season as well as extra changes of clothing available in case of spills or accidents. Please label your child's jackets.
